## Making recycling better

Bigger opening on recycling lid

Please don't dump recycling on top of or around the recycling bins

Breakdown all cardboard boxes so they fit through the bigger opening

The lids are locked to stop rubbish from being put in the recycling bins. Clean, good quality items are easier to recycle. Keeping rubbish out of the recycling bins means your collections happen smoothly.

Order a free reusable recycling bag to store and carry your recycling in. Email your request to [recycle@towerhamlets.gov.uk](mailto:recycle@towerhamlets.gov.uk)
